

*Committee
R&D Council*

Approved For Release 2004/10/28 : CIA-RDP80M01082A000200150021-5

DCI/IC 74-0184
18 March 1974

The Honorable Malcolm R. Currie
Director of Defense Research
and Engineering
Room 3 E 1006, Pentagon
Washington, D.C. 20301

Dear Mal,

Bill Colby has recently appointed [] as a special assistant to him for selective special duties. This will require that he refocus his sights somewhat and the work of the IC Staff, which he has directed, will fall to me.

25X1

As you are aware, the concept of an R&D Council for IRAC grew out of discussions with Bill Colby in the early formation of the Staff. We consider the support to the Council to be one of the Community Staff's steady-state requirements. Accordingly, I've put the Council high on the priority of things [] is to support. I hope you will agree to have Bill attend R&D Council sessions as [] has done. [] who works for Bill, will continue in his more direct involvement as Executive Secretary.

25X1

25X1

Sincerely,

LSI

[]
Principal Deputy for Program Development
and Operations, IC Staff
